

AUTHOR GUIDELINES

INDONESIAN JOURNAL OF ENTOMOLOGY

Jurnal Entomologi Indonesia - JEI (Indonesian Journal of Entomology) publishes original research papers and short communications that covers the basic and applied aspect of insects and mites or other arthropods in agriculture, forestry, human and animal health, and natural resources and environmental management. The journal is published by Perhimpunan Entomologi Indonesia - PEI (Entomological Society of Indonesia).

JEI is an open-access, peer reviewed journal that has been accredited by Directorate General of Higher Education (DGHE), Republic of Indonesia No 56/DIKTI/Kep/2012.

MANUSCRIPT SUBMISSION

File format. Manuscript must be submitted in Microsoft Word documents and clearly mention the type of article.

Cover letter. Author must attach cover letter that inform to the editor about important research result, statement that the article is not being submitted or have been published in other journal and provide at least 3 (three) recommended reviewers including their email or website.

Submission. Manuscript and cover letter must be submitted electronically via the JEI site at:

<http://jurnal.pei-pusat.org>

Cover letter could be placed in "Comments for the Editor" (step 1) and also upload through the menu "Upload Supplementary File" (step 4).

TYPES OF MANUSCRIPT

Article. A report of research addressing a specific research question, including the methods used, the results of the research, and conclusions drawn from the research. The structure of article include of Introduction, Material and Method, Result, Discussion, Conclusion and References. Papers should not normally exceed 16 pages (including tables and figures), but longer papers of particular merit may be considered.

Short Communication. Short research reports that would not normally exceed 10 pages. Manuscripts submitted should be novel and of wide general interest to entomologists. A Short Communication should be a concise report of an independent line of research and require the structure of report include of Introduction, Methodology, Result and Discussion and References.

MANUSCRIPT PREPARATION

- Manuscript must be written with Times New Roman 12 pt, double spaced and with left aligning text in A4 Microsoft Word documents. The margin is 3 cm of each side.
- Page number must be placed in top-right of each page.
- Lines must be numbered. In Microsoft Word, to provide line numbers, select "Page Layout", select "Line Numbers" and choose "Continuous".
- Tables and figures must be clear and placed in different page after references. Text and numbers in table and figures could be smaller the main text.

ARTICLE STRUCTURE

- PAGE TITLE (1 single page)
- ABSTRACT (including keywords)
- INTRODUCTION
- MATERIAL AND METHOD
- RESULT
- DISCUSSION
- CONCLUSION
- ACKNOWLEDGEMENT (if any)
- REFENCES
- List of Tables
- List of Figures
- Supplementary materials (if any)

DESCRIPTION

PAGE TITLE

Page title consists of title of article, name of authors, institutional address of each author, correspondence author and running title.

Manuscript title must be clear and short (maximum of 20 words). Please provide a short title (running head), with a maximum of 40 characters including spaces.

Full name of authors should be followed by numbers and provided institutional address including city, zip code and country. Correspondence author must be marked with asterisk (*) after the name and provided telephone/fax and e-mail address.

ABSTRACT

A self-contained abstract, not exceeding 250 words, must be consisted of introduction sentences, research objective, methodology, result, discussion and conclusion.

Keywords are consisted of 3-5 words. Provide italic format for species name (Latin name).

INTRODUCTION

Introduction consists of research background and provided with appropriate references and ended with research objective.

MATERIAL AND METHOD

Material and method must cover information about research location, research methodology and statistics (data analysis).

Authors must clearly described the methodology in chronological order and provide sub-titles.

Authors must state what statistical approaches were used in their analyses.

RESULT

Describe the research result. The same data should not be given in both tables and figures. We would also request that authors ensure a match between the tests used and figures provided in the text.

Tables and figures must be placed after references and in different page. Title of table should be put above the table and title of figure in below of figure.

DISCUSSION

Discuss the important result and provide with appropriate references. Compare the research result with other published research. If needed, in the end of discussion could be provided the implication of result to related issues.

CONCLUSION

Conclude based on the research results and must be related to objectives or questions of research.

ACKNOWLEDGEMENT

Provide acknowledgement for the research funding and also other persons who have contribution in the research.

REFERENCES

References must consist of at least 80% of primary references (journal articles) with some references are recently published in the last three years.

In the running text, citations should be made as per the following examples. For up to two authors, give the surnames separated by '&'. For more than two authors, give the surname of the first author followed by 'et al.'

As part of the sentence: Rizali (2013), or Akbar & Buchori (2012).

When in parentheses: (Rizali 2013, Akbar & Buchori 2012).

If the reference would require the same author abbreviation but different years: Buchori et al. (2012, 2016) or (Buchori et al., 2012, 2016).

The reference list should be in alphabetical order according to the author surnames. All authors' names and the full title of the article must be

included. Journal and periodical titles should be given in full.

We provided "reference style" for EndNote and Zotero that could be downloaded in the website.
